

One-third of your body's protein comes from collagen. However, with age, collagen production in the body decreases, which adversely affects the body's ability to repair and renew itself, which eventually leads to changes in appearance, flexibility, strength, and function. Normal collagen production begins to diminish at a rate of 1.5% per year after age 25, and collagen fibers become brittle and weak. As for Keratin, it is a natural occurring substance that the body synthesizes according to the types of food it gets, this substance enters the composition of hair, nails, and skin.

Dry, brittle, thinning hair is associated with a lack of nutrients that contribute to the synthesis of keratin.

**Keratin + Collagen Thickness & Growth** contains:

**Cynatine HNS:** which helps to improve hair strength, enhance hair volume, and increase shine.

**Type 1&3 Collagen:** While the collagen in skin gives it a smooth, firm appearance, the collagen in hair contributes to hair thickness, reduces hair loss, and improves elasticity.

**Keratin + Collagen Thickness & Growth** is a nutraceutical solution for strong, soft, lustrous, and thick hair. It targets hair defects caused by health and genetic problems or lack of hair care, and the use of chemical dyes and products that are not suitable for hair type, in addition to the frequent use of hair dryer and hair iron.

**Keratin + Collagen Thickness & Growth** comes in a 60 and 120 capsules container.

It contains:

**BioActive GenoCell Collagen** which is a structural component of hair, skin, and nail health.

**Vitamin C from Amla extract** which is an important antioxidant to support healthy hair.

Studies show reduced hair loss from everyday activities can be seen within 30-60 days.

**SUGGESTED USE:** Take two (2) capsules, twice daily.

## For Stronger, Brighter, and Softer Hair
